

ROPS

ROLLOVER PROTECTIVE STRUCTURES

DID YOU KNOW?

OVER-TURNS

are the most frequent cause of death on farms at a rate of 96 per year

The occupational fatality rate for farmers is **800% higher** than other industries

7 OUT OF 10

farms **go out of business** within 5 years of a tractor overturn fatality

ROUGHLY HALF

of the tractors in the U.S. are **unprotected**

WHAT IF ALL THIS COULD BE PREVENTED?

ROPS are **99% effective** in **preventing injury or death** in the event of an overturn when used with a seatbelt

\$1,200 the **average cost** of a ROPS

For every rollover fatality, there are **FIVE NON-FATAL INJURIES** — 13% of which result in **permanent disability**

99%

of farmers are **happy** with their retrofitted ROPS

ROPS REBATE PROGRAM FACTS

- ▶ The National ROPS Rebate Program offers farmers approximately 70% in rebates for rollover protection installed on unprotected tractors. Please call 877-ROPS-R4U for state-specific rebate information.
- ▶ The program provides 80% of its funding directly to farmers (20% goes to promotion of the program).
- ▶ In just over 13 years (2006–2019), more than 2,950 tractors have been retrofitted in 17 states.
- ▶ The National ROPS Rebate Program is an effort supported and guided by members of the National Tractor Safety Coalition, an organization with representation from nearly 60 multi-sector industry and advocacy groups.

*Since retrofitting through the Program, participants have reported at least **26 events** in which **death or permanent disability were likely prevented**, as well as many close calls. These are the lives that your support helps save.*

COSTS OF A ROLLOVER FATALITY

\$922,210

Cost of one overturn*

\$1,200

Average cost of a ROPS

\$391

Average out of pocket cost for a program participant

In New York alone, nearly **\$5 million** has already been saved as a direct result of this program.

Future savings of **\$12,136,512**, **\$15,781,027**, and **\$18,924,818** are projected if retrofitted tractors remain in operation 15, 20, or 25 years after their retrofit.

What farmers are saying about the program

"I'm very happy to have it on my tractor and would not have been able to get one without your program. Thank you."

BRIAN ROHDE, Dublin, NH

"It's a great feeling knowing you have that extra safety of rollover protection. I do thank you for the Program."

TOMMY HEATH,
Plum City, WI

"Everybody benefits from this program and that's the bottom line."

ALLEN MCCLEMENTS,
Nunda, NY

"I wouldn't be doing this without the rebate. I'd just be sitting around thinking about it."

MARK BOYDEN, Cambridge, VT

"Thank you so much for this rebate program for tractor rollbars. I'm sure it will save many lives and prevent many injuries."

JOE PRIDDY, Russell, PA
